

OSL FOUNDATIONAL STUDY

THE HEALING MIRACLES OF JESUS

A 3-month weekly Bible Study of the miracles in the Gospels that includes practical training in healing prayer ministry

Offered online through OSL or locally with one of our authorized teachers

The Holy Spirit is moving to deepen our relationship with Jesus in the *OSL Foundational Study – The Healing Miracles of Jesus*. You are invited to come and study the many accounts of healing with us. Participants in the classes discover that in studying the healing accounts of Jesus, they also develop a deeper, spiritual, and profound relationship with him.

“The work of this class is doing a lot of spiritual healing - not what I expected from a “Bible study”. I am developing a real relationship with God in ways I have never fathomed possible. Otherwise, I would have moved in cerebral ways that I am quite good at and never have experienced such joy and peace, Thank you.”

As the classes engage in in-depth discussions, prayer breakout groups, and the thematic study of the 26 healing accounts, healing prayer skills are honed, and participants become more equipped to pray for anyone, anywhere at any time.

Throughout the course, friendships are formed and deepened. Small-group Healing Communities emerge from the courses, as well as healing prayer ministers who are well equipped to minister in Jesus’ healing power.

When asked recently, *“what is the difference between healing prayers and typical prayer ministry?”* one study group shared that the 26 Healing Miracles Classes:

- Equip prayer ministers with a different set of tools.
- Teach participants to get to the root of the issue so Jesus can perform the healing.
- Help participants to recognize blocks to healing so that they can be addressed in a prayer session.
- Assist the prayer ministers to understand physical healing as well as inner healing, and that inner healing may be needed so Jesus can perform physical healing.
- Create an awareness of the importance of the Holy Spirit’s direction when listening to the prayer recipient.
